-- Summary --

Software Development student focused on web and backend development, with experience in JavaScript, React, Node.js, Express, Django and SQL. Skilled in building REST APIs, working with databases, implementing authentication, and developing full-stack applications. Eager to apply technical skills in a professional development environment.

Constantly seeking opportunities for growth and professional development, highlighted by strong communication and teamwork skills, adaptability, problem-solving abilities, and a proactive approach to learning and taking on new challenges.

-- Technical Skills --

- **Database Management:** Experienced with MySQL Server, PostgreSQL, and SQL Server Management Studio (SSMS), including database design, SQL queries, relationships, CRUD operations, and data management.

- **Development Environments:** Visual Studio Code, Visual Studio 2022, SQL Server Management Studio (SSMS), NetBeans.

Web Development: HTML, CSS, JavaScript, React, Node.js, Express.js, responsive web development.

- **Programming Languages:** JavaScript, Python, C#, HTML, CSS.

- **Frameworks & Technologies:** Node.js, Express.js, React, Django

- **Version Control:** Git, GitHub.

- **Libraries & Tools:** React Router, JWT (JSON Web Tokens), Nodemailer, Multer, Helmet, Bootstrap, Axios, Matplotlib, BeautifulSoup, Pandas, Python (Requests).

-**Development Methodology:** Scrum, Cascade.

-- Experience --

Practice Project - Full-Stack Web Developer — Salud y Armonía

March 22, 2026 – July 20, 2026

- Developed a full-stack e-commerce web application using **React, Express.js, and SQL Server Management Studio (SSMS)**.
- Implemented user authentication and authorization using **JWT**, following secure practices for token handling and access control.
- Integrated **Nodemailer** to implement account recovery and email-based password reset functionality.

- Applied security practices and learned to identify and mitigate common **web application vulnerabilities**.
- Performed debugging, testing, and troubleshooting to identify and resolve application errors.
- Used **Cline and AI-assisted development tools** to support coding, debugging, research, and problem-solving throughout the project.

Practice Project - Web Developer — Panadería Platanar

August 3, 2025 – September 29, 2025

- Developed a responsive business website for **Panadería Platanar** using **Django** and its MVC-based architecture.
- Implemented database fundamentals, including data modeling, relationships, and database integration.
- Gained hands-on experience with my first **Django deployment**, configuring the application for a production environment.
- Developed interactive UI components featuring **cards, animations, and responsive layouts** to improve the user experience.
- Strengthened foundational knowledge in **web development, backend programming, databases, and application structure** through the project.

-- Education --

- Technical Degree in Software Development

Colegio Agropecuario de San Carlos — December 2024

- Bachelor's degree in systems engineering — In Progress

Universidad Católica de Costa Rica

Expected Graduation: 2027
